Springer Seminars in Immunopathology

Founded in 1978 by P. A. Miescher and H. J. Müller-Eberhard. Since 1988 edited by P. A. Miescher and H. L. Spiegelberg.

Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis); that it is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, if any, as well as by the responsible authorities at the institute where the work has been carried out; that, if and when the manuscript is accepted for publication, the authors agree to automatic transfer of the copyright to the publisher; and that the manuscript will not be published elsewhere in any language without the consent of the copyright holders.

All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e.g., as offprints), as well as all translation rights. No material published in this journal may be reproduced photographically or stored on microfilm, in electronic data bases, video disks, etc., without first obtaining written permission from the publisher.

The use of general descriptive names, trade names, trademarks, etc., in this publication, even if not specifically identified, does not imply that these names are not protected by the relevant laws and regulations.

While the advice and information in this journal is believed to be true and accurate at the date of its going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.

Special regulations for photocopies in the USA: Photocopies may be made for personal or in-house use beyond the limitations stipulated under Section 107 or 108 of U.S. Copyright Law, provided a fee is paid. All fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0344-4325, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution, promotion, new works, or resale. In these cases, specific written permission must first be obtained from the publisher.

Contents of Volume 17, 1995/96

Number 1 issued in July 1995

Immunoneurology I

Guest Editors: M. Choffion, L. Steinman

1 **M.Choffion, L. Steinman:** Introduction

3 **B. Lang, J. Newsom-Davis:** Immunopathology of the Lambert-Eaton myasthenic syndrome

17 **J. P. Antel, N. R. Cashman:** Immunological findings in amyotrophic lateral sclerosis

29 **A. M. Rostami:** Guillain-Barré syndrome: clinical and immunological aspects

43 **P. M. Moore, R. P. Lisak:** Systemic lupus erythematosus: immunopathogenesis of neurologic dysfunction

61 **D. A. Hafler, H. L. Weiner:** Antigen-specific therapies for the treatment of autoimmune diseases

77 **H. Lassmann, K. Vass:** Are current immunological concepts of multiple sclerosis reflected by the immunopathology of its lesions?

89 **S. F. Hunter, M. Rodriguez:** Multiple sclerosis: a unique immunopathological syndrome of the central nervous system

107 **G. Birnbaum:** Stress proteins: their role in the normal central nervous system and in disease states, especially multiple sclerosis

Number 2/3 issued in September 1995

Viral immunopathology

Guest Editors: R. M. Zinkernagel, H. Hengartner

119 **R. M. Zinkernagel, H. Hengartner:** Introduction

121 **D. E. Griffin:** Arboviruses and the central nervous system

133 **H. Wege:** Immunopathological aspects of coronavirus infections

149 **D. R. Milich, M. Sallberg, T. Maruyama:** The humoral immune response in acute and chronic hepatitis B virus infection

167 **P. G. W. Plagemann, R. R. R. Rowland, C. Even, K. S. Faaberg:** Lactate dehydrogenase-elevating virus: an ideal persistent virus?

187 **P. J. M. Openshaw:** Immunopathological mechanisms in respiratory syncytial virus disease

203 **J. H. Vaughan:** The Epstein-Barr virus in autoimmunity

231 **H. C. Morse III, N. Giese, R. Morawetz, Y. Tang, R. Gazzinelli, W. K. Kim, S. Chattopadhyay, J. W. Hartley:** Cells and cytokines in the pathogenesis of MAIDS, a retrovirus-induced immunodeficiency syndrome of mice

247 **M. S. Asano, R. Ahmed:** Immune conflicts in lymphocytic choriomeningitis virus

261 **F. V. Chisari, C. Ferrari:** Hepatitis B virus immunopathology

Number 4 issued in March 1996

Superantigens in disease

Guest Editor: H. Robson MacDonald

283 **H. Robson MacDonald:** Superantigens in disease

285 **N. M. Ponzio, V. K. Tsiagbe, G. J. Thorbecke:** Superantigens related to B cell hyperplasia

307 **M. Lafon, A. Galelli:** Superantigen related to rabies

319 **C. Ciurli, R.-P. Sékaly, H. Soudeyns:** Study of the T cell receptor repertoire in viral immunodeficiency disease

333 **P. Luppi, M. Trucco:** Superantigens in insulin-dependent diabetes mellitus

363 **A. Abdelnour, Y.-X. Zhao, T. Bremell, R. Holmdahl, A. Tarkowski:** Role of superantigens in experimental arthritis

375 **J. D. Ohmen, R. L. Modlin:** Evidence for a superantigen in the pathogenesis of tuberculosis

385 **D. Y. M. Leung:** Superantigens related to Kawasaki syndrome

397 **P. Antonsson, J. Hansson, T. Kalland, P. A. Lando, L. Ohlsson, E. Schad, A. Svensson, M. Dohlsten**: Genetically engineered superantigens in experimental tumor therapy
